INNOVATORI PER TRADIZIONE
INNOVATION IS OUR TRADITION

Natural STAINS is the collection of universal paste colors from the NATURAL CERAMIC SYSTEM.

Natural STAINS are highly fluorescent and traslucent.

Natural STAINS are ceramic-based paste colors, they can be used both as surface colors as well as depth colors: they can be applied between layering masses and also mixed with layering ceramic powders.

Natural STAINS can be used with all the ceramics of the Natural Ceramic System: with Natural ZiR ceramic for zirconium, with Natural HT and Natural LF ceramics for alloys, with Natural DSL lithium silicate ceramic and with Natural CRYSTAL for micro-layering.
